Hitachi's environmental vision

"Thanks to environmentally friendly materials, an environmentally aware approach to manufacturing, more efficient distribution and reduced packaging we have reduced the environmental impact of our projectors before they even reach your meeting."

- The extended Hybrid Filter and lamp life means reduced electronic waste and reduced maintenance visits, resulting in an overall reduction in carbon footprint¹*
- Hitachi is committed towards eco-friendly solutions, using paint-free casing and lower amounts of packaging*
- The ECO button on the top of the projector provides automatic power saving*
- Compliant with the EU Directive RoHS²*

¹ Available on the CP-X2521WN, CP-X3021WN, CPX11WN and CPWX12WN.

² RoHS is the acronym of "Directive 2002/95 EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

*The stated lamp and filter life refers to the average life expected in ideal operating conditions with usage in accordance with the manual. The majority of, but not all lamps and filters should achieve this figure. **A free replacement lamp will be issued if the original lamp is less than 6 months old and it has only been used for less than the hours stated on lamp warranty from the date of first use. Where a lamp fails and a replacement lamp is taken under warranty, the duration of the warranty for the replacement lamp shall be the remainder of the original warranty period only. Real presentation power, anywhere you go

Being able to deliver a powerful presentation anywhere is vital for modern mobile business professionals. Weighing as little as 2.3kg and designed for reliability, Hitachi portable projectors pack the features and performance of larger models, delivering outstanding results wherever your business takes you. Quick and easy to set up, they take the stress out of presenting.

Lightweight and easy to carry

Supplied with a soft carry case* these compact and light weight models are not only easy to carry in the office, they are the ideal presentation solution for visiting customers too.

*Softcase supplied with CPX11WN and CPWX12WN.

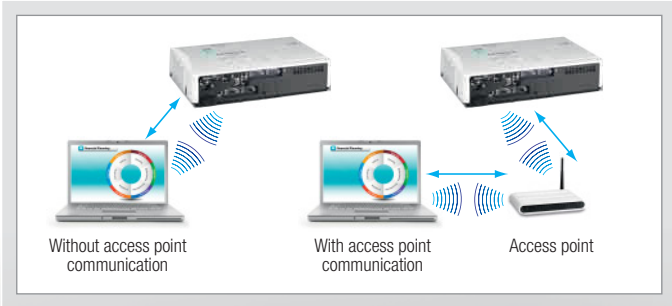

Versatile connectivity

Wireless capability*

The USB wireless adaptor supports all IEEE802.11b/g/n networks and enables the projector and computer to communicate both directly or via a wireless network infrastructure, letting you run presentations or lessons wirelessly from your laptop.

*Available on the CP-X2521WN, CP-X3021WN, CPX11WN and CPWX12WN.

Valuable performance features

Present without a PC**

Using a USB memory stick*2 or other suitable storage device, users can display presentations or images through the projector without the need of a computer. The thumbnail display ensures that menus are easy to see, and there is also a slideshow function.

*1 Available on the CP-X2521WN, CP-X3021WN, CPX11WN and CPWX12WN.
*2 Not compatible with all USB storage devices.

Large images in a limited space

Hitachi projectors overcome the challenge of delivering presentations in small rooms with limited space, as they can project a 60" (1.52m) from less than 75" (1.9m) away.

Wireless Multi-user presentations*

The wireless presentation capabilities of these models combined with the Live-viewer software allows up to four computer screens to be displayed simultaneously. Individual usernames can be assigned to connected computers making it easy to keep a track of displayed presentations. This provides greater flexibility when presenting and eliminates the clutter caused by cables.

HDMI input*

HDMI provides completely digital connections, ensuring that lessons and presentations can be delivered with the highest image quality.

Template function

This unique Hitachi feature allows you to project lines, grids and maps onto a whiteboard, blackboard or flip chart, to make writing and drawing and explaining easier.

Crestron RoomView™

RoomView™ software provides a custom configurable interface to monitor, manage and control every device in every room remotely from any computer. RoomView Connected™ Projector Support Projectors with Crestron inside already connect directly to RoomView Express software. Built-in network connectivity provides instant status and remote technical support so your class or meeting is never interrupted. Broadcast messaging ensures a safe environment. Instructors can send an urgent memo to the main office, and administrators can alert presenters in every room with just one click. Schedule all the projectors throughout the facility to turn off at the end of the day, saving energy and preserving lamps.

*Available on the CP-X2521WN, CP-X3021WN, CPX11WN and CPWX12WN.

Low Total Cost of Ownership

Long lamp and Hybrid Filter life

A Hitachi Hybrid filter requires minimal maintenance and should last as long as the projector lamp. And because replacement lamps come with a new filter, you can simply replace both at the same time making it unnecessary to clean the filter. Using the new Eco Mode, lamp life is now up to 5000 hours* – enough for years of bright effective mobile presentations.

*Up to 5000 hours on CP-X2521WN, CP-X3021WN, CPX11WN and CPWX12WN. Up to 4000 hours on CP-RX93.

Intelligent Eco Mode and 2000:1 contrast ratio*

When Intelligent Eco Mode is selected, the brightness of the lamp automatically changes according to the level of the input signal. The lamp becomes brighter when the input signal level is high and darker when the level is low. In addition these projectors offer you a higher contrast ratio of 2000:1.

*Available on the CPX11WN, CPWX12WN, CP-X2521WN and CP-X3021WN.

Lamp becomes less bright

Lamp becomes more bright

Front air exhaust

Warm air is exhausted at the front of the projector, away from your audience. The result is a quieter more comfortable meeting, with less distraction.

Audio pass through

Audio pass through allows the user to listen to external speakers via the projectors audio output whilst in standby mode, so you experience audio without images. This feature preserves the lamp life when you only need sound.
